On the Subject of One Item One Meal

Carl, what do you want? You gotta eat to keep your strength up, man.

One Item One Meal is a module in which you select the number of calories an item on a display gives the consumer.

Display

On the module, there is an image display. Match the image from the display with the table below to get to correct calorie-amount.

Number Rules

- If the serial number **has a vowel,** submit when the countdown timer has a 5 in the last position.
- If the bomb contains **4 batteries,** submit when the countdown timer has a 1 in the last position.
- Otherwise, submit when the countdown timer has a 3 in the last position.

526	400	394	612	160	205	725	1254
